Cooking points

Turkey preparation given

By SHIRLEY W. WALTON
Extension Agent

Thanksgiving time is a special season of the year when we stop and give thanks for the many blessings that we have enjoyed during the year. As we celebrate Thanksgiving with our families, may we set aside a time to count our blessings for good health, happiness, our families and the American freedoms which we enjoy so much each day.

Most of us will be enjoying turkey. We are especially fortunate that this excellent protein source is at a most reasonable price during this period of time. This year turkey production is up 7% from 1979. This year there is 167,650,000 turkeys in the present supply. This means that turkeys will continue to be plentiful on the market and at a very attractive price compared to other meats.

When preparing your turkey for the Thanksgiving meal or other times, some of the following pointers will be helpful:

1. Use a shallow roasting pan without a cover or you many wish to use aluminum foil to thoroughly wrap the turkey in.
2. Place the prepared bird breast down on an adequate rack if using the roasting pan.
3. Cover the bird with a cloth well moistened with fat. This should be an unsalted fat.
4. Roast at 325° F.
5. If the cloth becomes dry, baste with melted fat from the pan or with extra fat.
6. When nearly done the bird may be turned breast up for browning. If a special rack is not available, the breast should be placed as nearly breast down as possible on a flat rack in a roasting pan. When done, the leg moves easily when the end of the drumstick is held and the leg is moved. Birds other than turkeys may be cooked in a rotisserie to advantage. Cooking is slow and even and the poultry is juicy and of fine flavor.

Good news for homemakers

In all cookery methods, temperatures should be low (325° F.) since high temperatures toughen the meat and make it less moist. In addition, a broiler or fryer may be steamed for a short period of time to insure doneness all the way through.

I wish to caution each of you not to use the high temperature method for short cuts in preparing your turkey. This toughens the meat and causes it to be dry and stringy, as well as it is not a safe way to handle poultry.

On behalf of the Appomattox County Extension Staff, I wish to extend to each of you best wishes for a good Thanksgiving season. May it be a season where we all stop to reflect and count our blessings.

If you have a homemaking question or problem, you may call us at 352-8244 or write us at P. O. Box 488, Appomattox, Va. 24522.

Happy Thanksgiving and have a good week!

Pumpkin Bread
3½ cups flour
3 cups sugar
2 teaspoon soda
1½ teaspoon salt
1 teaspoon cinnamon
1 teaspoon nutmeg or ½ teaspoon nutmeg and ½ teaspoon cloves
1 cup chopped nuts
1 cup oil
4 eggs
⅔ cup water
2 cups pumpkin

Sift dry ingredients, mix well. Add remaining ingredients. Mix until smooth. Place in two greased loaf pans. Bake at 350 degrees for one hour or until done. (Delicious with whipped cream).

Thanks to Glenna Hix for sharing this recipe. It originally is from Mrs. Estelle C. Hackney. She is wife of one of Elon Baptist Church's former ministers.

Carrier examination slated

The U. S. Postal Service has announced that the sub-rural carrier examination will be given in the near future for the Appomattox post office, and urges that all those interested should apply to take the job-related tests.

Those wishing to take the sub-rural carrier examination can apply at the Appomattox post Office beginning December 1, 1980.

Pamplin teachers visits sp. ed classes

Pamplin Elementary School teachers have visited Special Education classes at Appomattox Elementary School to become more familiar with special services that are provided students in Appomattox County Public Schools.

Speech services are provided at Pamplin Elementary, but students who are eligible for other special programs are referred by their teachers and enter appropriate programs at Appomattox Elementary School.

Among the programs offered are classes for the Hearing Impaired, Learning Disability, Educable Mentally Retarded, Emotionally Disturbed and Orthopedically Impaired.

Completes basic combat training

Private Alphonso M. Ford, son of Ofelia Trent of Route 4, Appomattox, Va., recently completed One Station Unit Training (OSUT) at the U. S. Army Infantry School, Fort Benning, Ga.

OSUT is a 12-week period which combines basic combat training and advanced individual training.

The training included weapons qualifications, squad tactics, patrolling, landmine warfare, field communications and combat operations. This qualifies the soldier as a light-weapons infantryman and as an indirect fire crewman.

Soldiers were taught to perform any of the duties in a rifle or mortar squad.

Give the gift that keeps giving all year: The Times-Virginian
